by Anglo Adhesives & Services Ltd

RANGE	Anti-Static Spray	Aqua Guard	Anglo Cleaner T3	Cleaner 13	Heavy Duty GP Cleaner	Auto Clean	Vinyl Application Fluid	Anglo AC5 Polish
								
EQUIVALENT TO	ANTI-STATIC CLEANER	ALTUGLAS CLEANER	ACRIFIX TC0030	IPA	SOTT Surface Cleaner II	TRAFFIC FILM REMOVER	VINYL SOLUTION	POLISH No.1
USE	Produces Anti-Static properties for over a month, cleans plastic and removes high levels of static.  Usable on a variety of different appliances & materials where static build up occurs.	Developed to clean & protect Acrylic sheet where water repellancy properties are required, such as external signs, windscreens on aircraft & submarines.	Works as a cleaner/primer on plastic sheet prior to applying acrylic adhesives to enhance bond strength.	Rapid cleaning fluid for removing finger prints & light marks on plastic sheets without leaving smears.	Works as both a cleaner & degreaser in one, on a variety of different plastics. Extremely hard working leaving no smears.	Removes old polish residues, traffic films, oils, dust & dirt prior to using adhesives & applying polishes.	An essential fluid for the use of applying vinyl. Designed to help apply vinyl graphics with precise placement & repositioning. VAF eliminates bubbles & wrinkles when applying graphics. Can also be used as a light duty cleaner.	For the effective scratch removal & polishing of a variety of different plastic sheets especially Cast & Extruded Acrylic.  Also works well removing minor scratch defects on many plastic compounds & for polishing plastic substrates that have aged over time.
